Emergency Order

Alaska Department
of Fish and Game

Under the Authority of AS 16.05.060

Emergency Order No. 04-01-20

Issued at Dillingham, Alaska
January 8, 2020

Effective Date: 12:00 a.m.
January 10, 2020

Expiration Date: June 30, 2020
unless superseded by
subsequent emergency order

EXPLANATION:

This emergency order opens the State of Alaska winter hunting season for moose in Game Management Unit 17A from January 10, 2020, through February 9, 2020. The bag limit for the winter season in Unit 17A is two moose. Hunters are allowed to harvest one antlered bull moose with a RM575 registration permit (antlered bull permit) and/or one antlerless moose with a RM576 registration permit (antlerless permit). To keep harvests within sustainable limits, the antlerless season will be closed by emergency order and federal announcement when 30 cow moose have been harvested. The bull harvest will be closed by similar actions when 25 bulls have been taken.

Hunters who have already harvested a moose during the current regulatory year are eligible to participate in this hunt, but can only take one additional moose.

This emergency order does not affect any other moose hunting regulations in Unit 17.

REGULATION:

Therefore, the following regulations in **5AAC 85.045(15), Hunting Seasons and Bag Limits for Moose**, are superseded by this emergency order, and the following provisions are effective:

Units and Bag Limits	Resident Open Season (Subsistence General Hunts)	Nonresident Open Season
----------------------	---	----------------------------

...

Unit 17(A)

Up to 2 moose per regulatory year, only as follows

RESIDENT HUNTERS:

1 moose by registration permit only; or Aug.25–Sept. 25 (Subsistence Hunt only)

Up to 2 moose by registration permit; during the period Jan. 10–Feb. 9 (Subsistence Hunt only)
Dec. 1–last day of Feb., a season of up to 31 days may be announced by emergency order

...

All other moose regulations remain unchanged and are not affected by this emergency order.

Commissioner

By delegation to:

Lauren N. Watine, PhD
Dillingham Area Wildlife Biologist

JUSTIFICATION:

The Alaska Board of Game and Federal Subsistence Board authorized a winter moose hunting season of up to 31 days in Unit 17A with a bag limit of up to two moose. A March 2017 aerial survey in Unit 17A resulted in an estimate corrected for sightability of 2,370 moose, (+563), well above our population objective of 800–1,200 moose in this unit. Composition surveys conducted in October 2017 revealed an estimated 77 bulls and 24.5 calves per 100 cows, which indicate surplus bulls available for harvest. Allowing harvest for antlered and antlerless moose is important to lower moose density in this area, while providing additional harvest opportunity. To keep harvests within sustainable limits, the antlerless season will be closed by emergency order and federal announcement when 30 cows have been harvested. The bull harvest will be closed by similar actions when 25 bulls have been taken.
