JUSTIFICATION:

The Alaska Board of Game endorsed the Fortymile Caribou Herd Harvest Plan as a means of guiding harvest of the herd. The annual harvest quota is allocated seasonally: 75% to the fall hunt and 25% to the winter hunt. The winter harvest quota is further subdivided into zones within the RC867 registration hunt area, each with its own quota. The winter 2022 combined quota for Zones 1 and 4 is 315 caribou. Fortymile caribou have been plentiful in Zones 1 and 4, and we expect the harvest quota for these zones to be reached by the date and time of closure. No further winter

harvest of caribou under the State of Alaska season is warranted in Zones 1 and 4 of the RC867 hunt area. The state caribou hunting season (RC867) remains open in Zones 2 and 3.
