My Accounts

My Farm Summary

This section allows you to apply for and view all your stock transport permit and aquatic stock acquisition permit applications and issued permits. The **receiving entity** (hatchery or farm site) is the responsible party for applying for the appropriate permit. Please allow for adequate processing time when applying for permits. For stock transport permits, an application must be submitted to the department **at least 45 days before** the requested date of transport ([5 AAC 41.295. Stock transport permits](#)). For aquatic stock acquisition and transport permits, an application must be submitted to the department **at least 30 days before** the requested date of collection and transport ([5 AAC 41.290. Aquatic stock acquisition from outside an aquatic farm site](#)).
