Hi,

I've been sampling and working on Leduc Creek for over a decade and have only know it as that. I noticed on the tag lab it said "not named" so when I checked they said it's because it doesn't have a name in the AWC. Leduc Creek comes out of Leduc Lake and drains into Leduc River. Can we add "Leduc Creek" as the name for 101-71-10040-2015-3003? Let me know if there's anything you need from me in order to make this happen. Thanks!
