|                     |       | GIS Analyst                | _____ |
|                     |       | GIS Analyst Date           | _____ |

### **Observation information**

| Species                  | Date(s) Observed | Spawning                            | Rearing                  | Present                  | Anadromous                          |
|--------------------------|------------------|-------------------------------------|--------------------------|--------------------------|-------------------------------------|
| <u>Pink/Humpy Salmon</u> | <u>9/10/23</u>   | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

|                  |                         |           |                |
|------------------|-------------------------|-----------|----------------|
| Name of Observer | <u>Heather Bauscher</u> | Signature | _____          |
| Agency           | _____                   | Date      | <u>9/10/23</u> |
| Address          | _____                   |           |                |

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
