

Tangle Lakes Archaeological District

Landmark Gap North Trailhead

This trail crosses ancient caribou migration routes that have drawn hunters here for thousands of years.

Landmark Gap North Trail    
(MP 24.6)

This trail extends approximately three miles to the south end of Landmark Gap Lake. The trail is rocky and dry with one marshy spot. All users, should stay on the trail as there are several known archaeological sites nearby. A solid, rocky bottom facilitates crossing the marshy spot.

Please Ride Responsibly

- Do not collect or disturb artifacts
- Stay on designated trails
- No pioneering new trails
