

**FISH HABITAT PERMIT  
SMALL-SCALE MINING - MAT-SU AREA**

I hereby make application for a Fish Habitat Permit for small scale mining in the streams in the Mat-Su Area as indicated in this permit.

NAME: \_\_\_\_\_  
ADDRESS: \_\_\_\_\_  
CITY: \_\_\_\_\_ STATE: \_\_\_\_\_ ZIP: \_\_\_\_\_  
TELEPHONE: \_\_\_\_\_  
E-MAIL: \_\_\_\_\_

<b>For Official Use Only</b>
PERMIT NO: <b>FH24-IV-</b> _____
DATE ISSUED: _____
DATE EXPIRES: <u>December 31, 2024</u>
ISSUED BY: _____ Delegation from Doug Vincent-Lang, Commissioner ADF&G

**AUTHORIZED SMALL SCALE MINING EQUIPMENT**

**Suction Dredge:** Intake (in.): \_\_\_\_\_ (must be 6 inches or less)  
Horsepower: \_\_\_\_\_ (must be 18 hp or less)

**Power Sluice:** Horsepower: \_\_\_\_\_ (must be 18 hp or less)

“Power Sluicing” is defined as the use of a sluice box and small pump to process material delivered to the sluice with hand tools (shovels, buckets, etc.). This type of mining is also commonly referred to as “High Banking”.

*I certify that I am a small scale miner and that I have read and understand this permit, including the permit conditions. I agree to strictly abide by all of the conditions of this permit and I affirm that all information provided herein is true and correct. I acknowledge that non-compliance with the conditions of this permit is subject to the penalty provisions of AS 16.05.841 and/or AS 16.05.871(d).*

Signature of Applicant \_\_\_\_\_ Date \_\_\_\_\_

**For Official Use Only:**

Additional authorized Small-Scale Mining Areas not included in the attached pre-approved list:

Creek/River Name	AWC Number	Location (Section(s), Township, Range or Latitude / Longitude)	Dates Permitted

Supplemental stream list attached

In accordance with AS 16.05.841 and AS 16.05.871(d), approval is hereby given to mine with the specified authorized equipment at the specified locations subject to the following stipulations.

### **PERMIT STIPULATIONS – ANADROMOUS FISH STREAMS**

These stipulations apply to anadromous water bodies specified under AS 16.05.871(a) (*Catalog of Waters Important for Spawning, Rearing, or Migration of Anadromous Fish*).

#### **Stipulations for ALL Small Scale Mining in Anadromous Streams**

1. Mining activities below the ordinary high water (OHW) line may be seasonally restricted to protect incubating fish eggs, alevins, and fry within the streambed gravels. Consult the addendum attached herein for a list of anadromous streams to determine timing restrictions for specific water bodies.
2. Construction or maintenance of dams, diversions, fills, deflectors, and any other structures below the OHW (vegetation) line is prohibited.
3. Natural stream banks and vegetated gravel bars or vegetated islands shall not be mined, under cut, or disturbed.
4. Motorized equipment shall not be used to move boulders, logs, or other objects too large to be moved by hand.
5. Wheeled or tracked vehicles or equipment shall not be operated in the stream or disturb the stream bank.
6. No equipment leaking fuel, hydraulic fluid, or other pollutants shall be operated below the OHW.
7. Water withdrawal is restricted to processing material through the sluice box and shall not be used for hydraulic mining or any other purpose.

#### **Additional Stipulation for Power Sluicing in Anadromous Fish Streams**

8. Water intakes must be screened with 1/8-inch mesh to prevent the impingement and entrainment of fish.
9. Adequate flow must remain to maintain fish passage during mining activities.

### **PERMIT STIPULATIONS – RESIDENT FISH STREAMS**

These stipulations apply to resident fish streams pursuant to AS 16.05.841.

#### **Stipulation for ALL Small Scale Mining in Resident Fish Streams**

1. Construction or maintenance of dams, diversions, fills, deflectors, and any other structure that may impede the efficient passage of fish is prohibited.

#### **Additional Stipulations for Power Sluicing in Resident Fish Streams**

2. Water intakes must be screened with 1/8-inch mesh to prevent the impingement and entrainment of fish.

---

**Advisory: The Alaska Department of Transportation and Public Facilities (ADOT&PF), Alaska Railroad Corporation (ARRC), and the Matanuska-Susitna Borough (MSB) maintain easements along their transportation corridors, including culverts and bridges. Any proposed small-scale mining activities conducted within these easements requires the applicant to acquire a right-of-entry permit from the ADOT&PF, ARRC, or MSB.**

**This permit does not allow motorized vehicle use in anadromous (i.e., salmon-bearing) streams.** A separate Fish Habitat Permit is required to cross anadromous waters.

**This determination applies only to activities regulated by ADF&G.** This determination does not relieve you of the responsibility for securing other state, federal, or local permits, nor does it authorize trespass on mineral claims or private property. It is the responsibility of the applicant/permit holder to obtain lawful permission from the landowner or land management agency prior to conducting activities authorized by this permit. Please contact the Palmer ADF&G Habitat office at (907) 861-3200 with any questions.

**On state land, the Alaska Department of Natural Resources, Division of Mining, Land, and Water (ADNR/DMLW) also classifies suction dredges with an intake 6 inches or less and pump 18 hp or less as recreational.** Dredge operators with an intake larger than 6 inches or a pump larger than 18 hp should contact the ADNR/DMLW at (907) 269-8652 to obtain commercial mining application instructions.

**The Alaska Department of Natural Resources, Division of Parks and Outdoor Recreation (ADNR/POR) has additional limitations on the use of motorized mining equipment within state park units.** Miners should contact the ADNR/DPOR at (907) 269-8400 to obtain the latest information for those areas.

**The Bureau of Land Management (BLM) has additional limitations on the use of motorized small scale mining equipment within lands managed by BLM.** Please contact the Bureau of Land Management at (907) 271-5960 to obtain the latest information for those areas.

**The National Park Service (NPS) reviews all mining activities, regardless of size, under the Mining in Parks Act.** Please contact the NPS at (907) 644-3510 to obtain the latest information for those areas.

**The Alaska Department of Environmental Conservation (ADEC) considers dredges with an intake 6 inches or smaller as small scale and will issue a General Permit (GP) for small scale mining in Alaska.** Larger dredges are considered commercial operations and require prior notice or approval from the federal land manager and ADEC. For more information, please contact the ADEC at (907) 451-2142 or <http://dec.alaska.gov/water/oasys/>.

This letter constitutes a permit issued under the authority of AS 16.05.871 and AS 16.05.841 and must be retained on site during project activities. Please be advised that this determination applies only to Habitat Section regulated activities; other agencies also may have jurisdiction under their respective authorities. This determination does not relieve you of your responsibility to secure other permits; state, federal, or local. You are still required to comply with all other applicable laws.

You are responsible for the actions of contractors, agents, or other persons who perform work to accomplish the approved project. For any activity that significantly deviates from the approved plan, you shall notify the Habitat Section and obtain written approval in the form of a permit amendment before beginning the activity. Any action that increases the project's overall scope or that negates, alters, or minimizes the intent or effectiveness of any provision contained in this permit will be deemed a significant deviation from the approved plan. The final determination as to the significance of any deviation and the need for a permit amendment is a Habitat Section responsibility. Therefore, we recommend you consult the Habitat Section before considering any deviation from the approved plan.

You shall give an authorized representative of the state free and unobstructed access to the permit site, at safe and reasonable times, for the purpose of inspecting or monitoring compliance with any provision of this permit. You shall furnish whatever assistance and information the authorized representative reasonably requires for monitoring and inspection purposes.

In addition to the penalties provided by law, this permit may be terminated or revoked for failure to comply with its provisions or failure to comply with applicable statutes and regulations. You shall mitigate any adverse effect upon fish or wildlife, their habitats, or any restriction or interference with public use that the commissioner determines was a direct result of your failure to comply with this permit or any applicable law.

You shall indemnify, save harmless, and defend the department, its agents, and its employees from any and all claims, actions, or liabilities for injuries or damages sustained by any person or property arising directly or indirectly from permitted activities or your performance under this permit. However, this provision has no effect if, and only if, the sole proximate cause of the injury is the department's negligence.

You may appeal those components of this permit decision relating to AS 16.05.871 in accordance with the provisions of AS 44.62.330-630.
