

PROPOSAL 150 – 5 AAC 09.310. Fishing seasons. Describe waters of Cinder River Lagoon open to commercial salmon fishing, as follows:

5 AAC 09.310(a)(1)(A) is amended to read:

(a) In the Northern District, salmon may be taken as follows:

(1) Cinder River Section:

(A) from May 1 through September 30 within the lagoon into which Cinder River drains (locally known as False Ugashik or Shagong) **described by a line across the lagoon entrance from 57° 21.14' N. lat., 158° 06.82' W. long. to 57° 21.46' N. lat., 158° 04.68' W. long.**

What is the issue you would like the board to address and why? Current regulations do not describe Cinder River Lagoon, which is the only area of the Cinder River Section that can be commercially fished for salmon prior to August 1. This proposal will define waters of Cinder River Lagoon that are currently open to commercial salmon fishing during scheduled weekly fishing periods.

PROPOSED BY: Alaska Department of Fish and Game
