

Mr. Chairman & Members of the Board,

I would like to ammend proposal 19 to allow dip netting from a vessel while anchored. I would also like to expand the area in which this would be allowed to the Nushagak commercial fishing district. However, I would only like dip netting to be allowed during the Nushagak commercial fishing closures. The vicinity near dillingham can be open to dipnetting anytime.

Thank you for your time and consideration,

Kenny Wilson
