

Frank Woods testimony to the Joint Boards of Fish and Game

Mr. Chairman and members of the Board, for the record my name is Frank Woods. 'm here to testify in behave of myself

Proposal 18,19,20 I support subsistence proposals with amendments to 18 with there being attending requirements or responsible users guidelines

Proposal-23 I support with action by this board to recedes dual permits indefinitely Reduce this constant conflict asking the Board of Fish and State of Alaska to fix a personal and financial investment problem.

Proposals 24-27 oppose for same reasons as before this board in the past . I have a personal interest I am D permit user

Proposals Proposal 30 Oppose all the claims with 32long x23 wide boats have numified these claims

Proposals 44 , 45 oppose that nothing wrong with leaving those Fish in the water to return

Proposal 46 as a disclosure I am impacted by this proposal more fish on the table for and from the seine or any other fishery will impact not only market prices but new entrants to this already low price fishery..

Craig Medred Article *“Seldom Spoken True in Subsistence Battle. How Unproductive Alaska Lands Really Are*

Population increase in 54 years since statehood

Alaska State Population 2012	731,449	68.6% White 13.4% Native American, 5.8% Hispanic 4.5% Asian, 3.3% Black or African American 0.7% Pacific Islander, 1.7% from other races, and 7.8% from two or more races.	501,774 white 98,014 native 42,424 Hispanic 32,915 Asian 24,138 black or African American 12,435 Other 57,053 mixed 5,120 Pacific Islander
Population 2004	655,435	<u>I refuse to go into the rural urban debate</u>	<u>Or into the Native –non-native issues</u>
Population 1990	550,043	Federal State get serious over land and made dual management a reality	Regional Native Corporations start growing and becoming successful the corporations have a dual purpose protect land and culture and be profitable
Population 1950	128,643	<u>Back before state hood we had enough wildlife resources to share</u>	<u>Now in 2013 competition for resource is huge</u>

Alaskan Native people just want to continue living off the promise to continue there lifestyle without further restrictions and or regulations. We are getting regulated and starved out of our communities. Medred references War and a natural evolution over competition of resources. I believe that the war is in this room (and rooms like this) that divide users in fierce competition over them fighting over the same resources that make this state our home.
