

**PROPOSAL 111**

**5 AAC 07.331. Gillnet specifications and operations.**

Increase maximum gillnet mesh size to 8 inches in both subsistence and commercial salmon fisheries, as follows:

Increase net sizes to 8 inches for salmon fishing either for subsistence or commercial fishing.

**What is the issue you would like the board to address and why?** Net sizes, commercial openings. Find a fish buyer for commercial fishing. Only income fishermen get because jobs are scarce in the villages.

**PROPOSED BY:** Kasigluk Traditional Council
