**(The provision of this paragraph do not apply after December 31,2019) remove**

**What is the issue you would like the board to address and why?** At the 2017 Kodiak BOF meeting after considerable discussion proposal 57 was adopted to allow set gill net fishing in the Alitak District in all waters between Cape Alitak and Cape Trinity after September 4. It was determined that the change would sunset Dec. 31 2019 and that the changes could be reevaluated and made permanent by a new proposal if no gear conflicts had resulted from the changes. To my knowledge no gear conflicts occurred and there was very minimal effort by set netters or seiners after Sept. 4 in the Alitak District during the 2017-18 seasons. Therefore the fishery should be allowed to continue.

"PROPOSAL 57 - 5 AAC 18.330. Gear. Allow set gillnet gear in the entire Alitak District after September 4, as follows: 5 AAC 18.330. Gear (d) (2) (d) In the Alitak District, salmon may be taken (1) in the Humpy-Deadman and Cape Alitak Sections by purse seines and beach seines only; (2) in the Alitak Bay, Moser Bay, Olga Bay, Dog Salmon Flats, Outer and Inner Upper Station, and Outer and Inner Akalura Sections by set gillnets only, except that after September 4, salmon may be taken also by purse seines and beach seines. Also after September 4 set gill net gear maybe used in the entire Alitak District."

**What is the issue you would like the board to address and why?** Problem: Lack of fishing time for the Alitak District set net fishery. The Alitak District set net fishery is a bankrupt fishery. It operates from retirement accounts, selling assets and cannery credit. The fishery is predominantly managed on sockeye returns to the Olga Bay systems on which fishing time has been severely restricted in recent years. Many of the set netters have been totally disenfranchised from other healthy local stocks that transit the area during sockeye restrictions. Opening the entire Alitak District to set net gear after Sept. 4 would allow those with the fortitude and means an opportunity to regain some of the loss created by restrictions imposed for sockeye management.
