Tap on the blue.

Is this the goal , gmo ,farmed fish?

Is this the real reason.

To destroy the sockeye salmon?

Hi Roni,

Yes. Comments you fax will be read by the board and become part of the meeting record.

Thanks,

Jessalynn

I hope you spend some time ,and realizing, your taking of crab ,pollack,and sockeye salmon.

All of the above ,cause the acidity of the ocean to raise.

Just watch the noaa shows on tv .

It's that simple.

You kill the sockeye salmon in the spawning grounds.

Like we do in the cookinlet ,kenai peninsula bourgh,

And not let ,the fry return.

It kill the eco system in the ocean.

7million sockey salmon dipnet fishery,and 6million sockeye salmon sport caught in the river.

On it way to spawn.

Is to many.

You must be careful, and we are not.

The river must be a sanctuary, you can't sport fish it safely, or dipnet it safely.
I urge you all to close it.
To these practices.

Every river you do sport fishing on, from Oregon to Alaska,
Has the same problem.

It's hundreds of problems,
And it's affecting the ocean's acidity.
