

PROPOSAL 202

5 AAC 32.150. Closed waters in Registration Area A.

Reduce waters closed to Dungeness crab commercial fishing in Tenakee Inlet, as follows:

Amend 5 AAC 32.150(2) as follows: “waters of Tenakee Inlet north of 57. 46’ N. lat. and between 135. 06.50’ W. long. and 135 18.18’ W. long.”

What is the issue you would like the board to address and why? The closed waters described in AAC 32.150(2) exceed the needs of a community of fewer than 150 people. These waters have become a honeypot for yacht charters.
