

## Southeast and Yakutat Proposal Index

*156 proposals*

King salmon.....	91
PROPOSAL 80	
Amend regulation to address payback provisions when the State of Alaska king salmon fisheries exceed Alaska’s annual king salmon all-gear harvest ceiling, as follows: .....	91
PROPOSAL 81	
Allocate any Alaska all gear-allocation king salmon remaining after September 1 to the commercial troll fishery, as follows:.....	91
PROPOSAL 82	
Amend the <i>Southeast Alaska King Salmon Management Plan</i> to align with the provisions of the 2019–2028 Pacific Salmon Treaty annex, as follows: .....	92
PROPOSAL 83	
Amend the <i>Southeast Alaska King Salmon Management Plan</i> to manage for an average sport harvest of 20% of the sport/troll allocation with commensurate regulations addressing sport fishery overages in the commercial troll fishery, as follows:) .....	100
PROPOSAL 84	
Amend the <i>Southeast Alaska King Salmon Management Plan</i> to ensure no closure of the resident king salmon fishery due to allocation concerns, as follows: .....	101
PROPOSAL 85	
Amend the <i>Southeast Alaska King Salmon Management Plan</i> to manage for a resident priority by implementing closed periods and reducing bag limits for nonresidents, as follows: .....	102
PROPOSAL 86	
Amend the <i>Southeast Alaska King Salmon Management Plan</i> to manage for a resident priority by implementing closed periods and reducing bag limits for nonresidents, as follows:.....	102
PROPOSAL 87	
Make numerous changes to management of commercial troll and sport fisheries for king salmon in Southeast Alaska, as follows:.....	103
PROPOSAL 88	
Amend the <i>Southeast Alaska King Salmon Management Plan</i> to manage for a sliding sport allocation between 16 and 24 percent with commensurate commercial troll fishery allocation modification under commercial regulation, as follows: .....	105

PROPOSAL 89

Allow the use of two additional fishing lines during periods of king salmon non-retention in all of the Southeast-Yakutat area if there is more than one CFEC power troll permit holder on board the vessel, as follows: ..... 113

PROPOSAL 90

Change trigger to from an annual abundance index (AI) number to a District 13 early-winter power troll CPUE tier, as follows: ..... 114

PROPOSAL 91

Reallocate the annual troll harvest allocation between the winter, spring and summer troll fisheries, as follows: ..... 115

PROPOSAL 92

Allow retention of king salmon greater than 26 inches in hatchery terminal harvest areas by commercial trollers, as follows: ..... 117

PROPOSAL 93

Amend the *Southeast Alaska King Salmon Management Plan* by reducing the maximum nonresident annual limit to three king salmon, as follows: ..... 117

PROPOSAL 94

Amend the *Southeast Alaska King Salmon Management Plan* to manage for a resident priority by implementing specific closed periods and reducing annual limits for nonresidents, as follows: ..... 118

PROPOSAL 95

Amend the *Southeast Alaska King Salmon Management Plan* to provide for inseason liberalization of management measures when the sport fish allocation will not be met, as follows: ..... 118

Enhancement and Special Harvest Areas..... 119

PROPOSAL 96

Expand waters of Herring Bay Terminal Harvest Area open to commercial troll fishing, as follows: ..... 119

PROPOSAL 97

Establish waters closed to commercial purse seine and drift gillnet gear but open to commercial troll gear in the Anita Bay Terminal Harvest Area when spring troll areas in District 6 and 8 are closed, as follows: ..... 119

PROPOSAL 98

Change the ratio of drift gillnet to purse seine openings from 2:1 to 1:2 in the Anita Bay Terminal Harvest Area, as follows: ..... 121

PROPOSAL 99	
Establish a gear rotation between purse seine and troll gear in the Southeast Cove Terminal Harvest area, as follows: .....	121
PROPOSAL 100	
Remove drift gillnet gear from allowed gear to participate in the Southeast Cove THA common property fisheries, as follows:.....	121
PROPOSAL 101	
Modify management plan to further consider potential effect of hatchery-produced salmon on wild-stock salmon, as follows: .....	122
PROPOSAL 102	
Change the ratio of drift gillnet to purse seine openings from 2:1 to 1:2 in the Deep Inlet Terminal Harvest Area, as follows: .....	125
PROPOSAL 103	
Modify net gear allocation guidelines to further consider potential effect of hatchery-produced salmon on wild-stock salmon and wild-stock salmon management, as follows: .....	125
PROPOSAL 104	
Create a management plan for hatchery returns to Burnett Inlet, as follows:.....	127
PROPOSAL 105	
Create a management plan for hatchery returns to Port Saint Nicholas, as follows: .....	128
PROPOSAL 106	
Modify boundaries of the Port Saint Nicholas Special Harvest Area and allow use of drift gillnet gear for cost recovery operations, as follows: .....	129
PROPOSAL 107	
Create a management plan for hatchery returns to Port Asumcion, as follows:.....	130
PROPOSAL 108	
Create a special harvest area for Port Asumcion, as follows:.....	131
PROPOSAL 109	
Establish a hatchery special harvest area in Carroll Inlet, as follows: .....	132
<b>Commercial salmon .....</b>	<b>132</b>
PROPOSAL 110	
Require reporting and recovery of lost drift gillnet gear, as follows: .....	133
PROPOSAL 111	
Change the maximum drift gillnet mesh size during periods established by emergency order from 6 inches to 6 and one-eight inches, as follows: .....	133

PROPOSAL 112	
	Provide the department authority to allow drift gillnets of up to 90 meshes in depth to be used in the District 11 drift gillnet fishery beginning in SW 34, as follows:. 134
PROPOSAL 113	
	Change the maximum mesh size during periods established by emergency order from 6 inches to a range of five and one-quarter to 6 inches and define dates in Districts 6, 8 and 11 when the mesh size will be implemented, as follows:..... 135
PROPOSAL 114	
	Allow the use of fishing rods in conjunction with downriggers by hand trollers, as follows: ..... 137
PROPOSAL 115	
	Modify the start date of the winter troll fishery, as follows: ..... 137
PROPOSAL 116	
	Require retention of king salmon caught during periods of nonretention to be retained if they are deemed too injured to be released and set price at one dollar for selling retained fish, as follows:..... 138
PROPOSAL 276	
	Allow for the retention of salmon during periods of commercial nonretention when the sport fishery in the area is open for that species, as follows: ..... 139
PROPOSAL 117	
	Allow trollers the use of two additional fishing lines in designated chum troll fishing areas in August and September, as follows: ..... 139
PROPOSAL 118	
	Modify the boundaries of Districts 6 and 8 in Sumner Strait, as follows: ..... 140
PROPOSAL 119	
	Create a new section in District 6 and reimplement the Section 6-D Pink Salmon Management Plan, as follows: ..... 141
PROPOSAL 120	
	Remove Section 6-D closure to fishing with drift gillnet gear during the month of August, as follows:..... 142
PROPOSAL 121	
	Establish waters closed to commercial drift gillnet fishing in and around Coffman Cove, as follows:..... 143
PROPOSAL 122	
	Remove sunset date so regulation remains in effect, as follows:..... 144

PROPOSAL 123	
Remove the sunset date so regulation remains in effect and change effective end date of the plan from July 22 to July 15, as follows:.....	144
PROPOSAL 124	
Establish additional guidelines for the department to manage the District 12 purse seine fishery north of Point Marsden, as follows:.....	145
<b>Personal Use/Sport/Subsistence.....</b>	<b>146</b>
Subsistence .....	146
PROPOSAL 125	
Clarify language for subsistence take of coho and king salmon, as follows: .....	146
PROPOSAL 126	
Repeal net tending requirement in Yakutat Bay, as follows:.....	146
PROPOSAL 127	
Repeal net tending requirement in Yakutat Bay, as follows:.....	147
PROPOSAL 128	
Allow use of set gillnets in all Southeast Alaska area subsistence salmon fisheries, as follows: .....	148
PROPOSAL 129	
Modify closed waters and remove coho salmon annual limit for the Klawock River, as follows: .....	149
PROPOSAL 130	
Modify fishing times and locations for subsistence salmon fishery in the Klawock River and Lake, as follows: .....	149
PROPOSAL 131	
Modify fishing area and add hand purse seine as legal gear for the Redoubt Bay and Lake subsistence salmon fishery, as follows: .....	150
PROPOSAL 132	
Prohibit the use of spears in Redoubt Bay and Lake subsistence fishery from June 21 to August 1, as follows: .....	150
PROPOSAL 133	
Allow the use of seine and gillnet gear in the waters of Redoubt Bay that are open to commercial salmon fishing, as follows:.....	151
<b>Personal Use .....</b>	<b>152</b>

PROPOSAL 134	
Prohibit obstructing more than half of the stream, creek, or river when personal use fishing, as follows: .....	152
PROPOSAL 135	
Allow permits to be issued for the personal use taking of king and coho salmon, as follows: .....	152
PROPOSAL 136	
Include commercial harvested salmon to fish that may not be possessed on the same day sport or personal use salmon are taken, as follows: .....	153
PROPOSAL 137	
Prohibit personal use proxy permits at Sweetheart Creek, as follows: .....	153
PROPOSAL 138	
Create salmon personal use fisheries in marine waters of the Juneau Management Area, as follows: .....	154
PROPOSAL 139	
Modify where personal use fishing can occur in the Taku River to include all of Section 11-B and remove dates when the fishery can occur, as follows: .....	154
PROPOSAL 140	
Add section 11-B as a personal use salmon fishing area when the area is closed to the commercial drift gillnet fishery, as follows: .....	155
PROPOSAL 141	
Add section 11-B as a personal use salmon fishing area when the area is closed to the commercial drift gillnet fishery, as follows: .....	156
PROPOSAL 142	
Establish bag and possession limits and lawful gear for smelt fishing in the Ketchikan area, as follows: .....	156
Sport.....	157
PROPOSAL 143	
Require inseason reporting of nonresident sport fish harvest, as follows: .....	157
PROPOSAL 144	
Establish a logbook program for rental vessels used in Southeast Alaska sport fisheries, as follows:.....	158
PROPOSAL 277	
Align bag limits for non-resident unguided halibut harvest from rental vessels in Southeast Alaska with NOAA bag limits for guided anglers in Halibut Management Area 2C, as follows:.....	159

PROPOSAL 145	
Establish nonresident bag, possession, and annual limits for coho and sockeye salmon in the fresh and salt waters of the Southeast Alaska Area, as follows: .....	160
PROPOSAL 146	
Establish nonresident bag and possession limits for coho, sockeye, chum, and pink salmon in salt waters of the Southeast Alaska Area, as follows: .....	162
PROPOSAL 147	
Establish nonresident bag and possession limits for coho salmon in the fresh waters east of the longitude of Cape Fairweather, as follows: .....	163
PROPOSAL 148	
Establish nonresident bag and possession limits for sockeye, chum, and pink salmon in fresh waters of the Southeast Alaska Area, as follows: .....	163
PROPOSAL 149	
Reduce saltwater coho salmon bag and possession limit in Puget Cove to two fish, as follows: .....	163
PROPOSAL 150	
Repeal rainbow trout size limits in Crystal, Glacier, and Moraine lakes, as follows: .....	164
PROPOSAL 151	
Prohibit guided sport fishing on the Salmon River near Gustavus, as follows: .....	165
PROPOSAL 152	
Close sport fishing in a section of 108 Creek, as follows: .....	165
PROPOSAL 153	
Close sport fishing in a section of Log Jam Creek, as follows: .....	165
PROPOSAL 154	
Allow the use of bow and arrow in Southeast Alaska sport fisheries, as follows: .	166
PROPOSAL 155	
Prohibit the removal of salmon from the water when nonretention regulations apply and prohibit the use of a multiple hook in Southeast Alaska sport fisheries, as follows: .....	166
<b>Herring .....</b>	<b>167</b>
PROPOSAL 156	
Modify harvest rate control rule for Sitka Sound sac roe herring fishery, as follows: .....	167

PROPOSAL 157	
	Modify harvest rate for Sitka Sound commercial sac roe herring fishery based on forecasted age structure, as follows: ..... 168
PROPOSAL 158	
	Incorporate forecasted age structure into Sitka Sound commercial sac roe herring fishery spawning biomass threshold, as follows:..... 170
PROPOSAL 159	
	Repeal this regulation related to management of the commercial sac roe herring fishery in Sitka Sound, as follows: ..... 172
PROPOSAL 160	
	Reduce closed waters in the Sitka Sound commercial sac roe herring fishery, as follows: ..... 173
PROPOSAL 161	
	Require a subsistence fishing permit to harvest herring roe on branches in the Sitka Sound area, as follows: ..... 173
PROPOSAL 162	
	Increase the possession limit for subsistence spawn-on-kelp harvest, as follows: . 174
PROPOSAL 163	
	Establish equal share quotas for the Sitka sac roe purse seine fishery, as follows: 175
PROPOSAL 164	
	Establish equal share quotas for the Sitka Sound sac roe herring purse seine fishery, as follows: ..... 176
PROPOSAL 165	
	Allow unharvested Sitka sac roe quota to be harvested for food and bait by herring sac roe purse seine permit holders, as follows:..... 177
PROPOSAL 166	
	Create an open pound herring spawn on kelp fishery in Sitka Sound, as follows:. 177
PROPOSAL 167	
	Redefine the boundaries of the Hoonah Sound spawn-on-kelp fishery (13-C) and the Sitka sac roe fishery (13-A/B), as follows: ..... 178
PROPOSAL 168	
	Repeal commercial set gillnet sac roe herring fisheries in Section 1-F, as follows:179
PROPOSAL 169	
	Repeal commercial set gillnet sac roe herring fisheries in Sections 1-E and 1-F, as follows: ..... 179

PROPOSAL 233	
Remove districts 13-A and 13-B from Northern Southeast herring spawn on kelp pound fishery administrative area, as follows: .....	180
<b>Shrimp and miscellaneous.....</b>	<b>180</b>
PROPOSAL 170	
Establish a positive customary and traditional use finding for shellfish and plants for all intertidal areas of Southeast Alaska and Yakutat, as follows: .....	180
PROPOSAL 171	
Change the start of the pot shrimp season from October to after March, as follows: .....	181
PROPOSAL 172	
Change the pot shrimp fishery from a fall/winter season to a spring/summer season, as follows: .....	181
PROPOSAL 173	
Change the pot shrimp fishery from a fall/winter season to a spring/summer season, as follows: .....	182
PROPOSAL 174	
Change the pot shrimp season in Districts 2 and 6 from a fall/winter season to spring/summer season, as follows: .....	183
PROPOSAL 175	
Limit the number of shrimp pots that may be deployed on a longline to 10, as follows: .....	184
PROPOSAL 176	
Reduce the number of shrimp pots that a vessel may fish, as follows: .....	185
PROPOSAL 177	
Establish closed waters in the Hydaburg area of Section 3-A, as follows:.....	186
PROPOSAL 178	
Expand waters closed to commercial pot shrimp fishery in Kasaan Bay, as follows: .....	187
PROPOSAL 179	
Expand waters closed to commercial pot shrimp fishery in Twelve-Mile Arm, as follows: .....	187
PROPOSAL 180	
Repeal observer coverage requirement, as follows:.....	188

PROPOSAL 181	
	Open a directed sidestripe beam trawl fishery in District 8 for remainder of November-February season once the directed shrimp beam trawl fishery has closed, as follows: ..... 189
PROPOSAL 182	
	Divide the District 15 GHR into two fishing areas with distinct GHRs for the new areas, as follows: ..... 189
PROPOSAL 183	
	Establish tunnel eye size requirements for ridged mesh shrimp pots in the personal use and sport fisheries, as follows: ..... 190
PROPOSAL 184	
	Clarify the practice of long-lining shrimp pots in the sport fishery..... 191
PROPOSAL 185	
	Allow the use of artificial lights as an attractant when taking squid., as follows: .. 191
PROPOSAL 186	
	Allow the take of squid with hook and line gear with an unlimited number of hooks, as follows: ..... 192
PROPOSAL 187	
	Allow the department to modify weekly fishing periods by emergency order during the weeks of Christmas and New Year's Day, as follows:..... 192
PROPOSAL 188	
	Change the start of the sea cucumber fishery from October 1 to the first Monday or Tuesday of October, as follows: ..... 193
PROPOSAL 189	
	Allow the department to increase the number of divers allowed to fish from a vessel from two to four by emergency order, as follows:..... 193
<b>Crab</b>	<b>..... 194</b>
PROPOSAL 190	
	Amend the Red King Crab Management Plan to include trip limits and equal share quotas when harvestable surplus is below threshold, as follows: ..... 194
PROPOSAL 191	
	Amend the <i>Southeast Alaska Red King Crab Management Plan</i> to base harvestable surplus on historical fishery performance information when surveys are not available, as follows:..... 195

PROPOSAL 192	
	Establish minimum guideline harvest level and guidance on inseason adjustment of guideline harvest levels in the Southeast Alaska golden king crab fishery, as follows: ..... 196
PROPOSAL 193	
	Extend northern boundary of the Southern management area, as follows: ..... 197
PROPOSAL 194	
	Remove Glacier Bay from the list of blue king crab fishing areas within Registration Area A, as follows: ..... 197
PROPOSAL 195	
	Extend Tanner crab fishing season in exploratory areas, as follows: ..... 198
PROPOSAL 196	
	Reduce the commercial golden king crab pot limit in waters of Registration Area A from 100 pots per vessel to 80 pots per vessel, as follows: ..... 199
PROPOSAL 197	
	Modify Tanner crab harvest strategy definition of core, non-core, and exploratory areas, as follows: ..... 199
PROPOSAL 198	
	Establish fixed start date for the Registration Area A commercial Tanner crab fishery, as follows: ..... 200
PROPOSAL 199	
	Allow operation of personal use, subsistence, or sport Dungeness crab and shrimp pot gear during the commercial king or Tanner crab fishery, as follows: ..... 201
PROPOSAL 200	
	Close the Dungeness crab commercial and nonresident sport fisheries in the vicinity of Klawock, as follows: ..... 201
PROPOSAL 201	
	Expand closed water boundary lines for the Dungeness crab commercial fishery in the Sitka Sound Special Use Area during the summer season, as follows: ..... 202
PROPOSAL 202	
	Reduce waters closed to Dungeness crab commercial fishing in Tenakee Inlet, as follows: ..... 203
PROPOSAL 203	
	Repeal closed waters for Dungeness crab commercial fishing in Merrifield Bay and Port Protection, as follows: ..... 203

PROPOSAL 204	
Close the Dungeness crab sport fishery in the vicinity of Coffman Cove, as follows:	
.....	203
PROPOSAL 205	
Close waters in Coffman Cove to commercial fishing for Dungeness crab, as follows:	
.....	204
PROPOSAL 206	
Close the Dungeness crab sport fishery in the vicinity of Whale Pass, as follows:	205
PROPOSAL 207	
Close waters in Whale Pass to commercial fishing for Dungeness crab, as follows:	
.....	205
PROPOSAL 208	
Close waters in Kasaan Bay to commercial fishing for Dungeness crab, as follows:	
.....	206
PROPOSAL 209	
Reduce the number of crab pots allowed and the Dungeness crab bag limit for nonresident anglers in District 3, as follows:	
.....	206
PROPOSAL 210	
Establish waters closed to commercial fishing for Dungeness crab in Sukwaan Strait, as follows:	
.....	207
PROPOSAL 211	
Repeal and amend Dungeness crab fishing season in Sitka Sound Special Use Area, as follows:	
.....	207
PROPOSAL 212	
Extend pot storage allowance after fishery closure, as follows:	
.....	207
PROPOSAL 213	
Extend pot storage allowance after fishery closure, as follows:	
.....	208
PROPOSAL 214	
Clarify that Dungeness crab pots are circular in shape, as follows:	
.....	208
<b>Groundfish</b>	<b>208</b>
PROPOSAL 215	
Align state waters sablefish fishing season with federal sablefish fishing season, as follows:	
.....	209
PROPOSAL 216	
Extend sablefish fishing season to December 15, as follows:	
.....	209

PROPOSAL 217	
Adjust lingcod bycatch allocations between groundfish and salmon fisheries, as follows: .....	209
PROPOSAL 218	
Establish registration requirements for the Pacific cod directed fishery, as follows: .....	210
PROPOSAL 219	
Clarify lawful gear for rockfish retention, as follows:.....	211
PROPOSAL 220	
Allow pot gear in the Northern Southeast Inside Subdistrict sablefish commercial fishery, as follows: .....	211
PROPOSAL 221	
Reduce the minimum inside diameter of circular escape rings from four inches to three and three-fourths of an inch on pots used to take sablefish, as follows: .....	212
PROPOSAL 222	
Require CFEC permit holders fishing for groundfish or halibut using hook-and-line, pot, or jig gear in the Eastern Gulf of Alaska Area to retain and land all rockfish, including thornyhead rockfish, as follows: .....	213
PROPOSAL 223	
Establish and clarify gear specifications of a groundfish pot for the subsistence and personal use sablefish fisheries, as follows: .....	214
PROPOSAL 224	
Allow rod and reel as lawful gear to harvest rockfish for personal use, as follows: .....	215
PROPOSAL 225	
Modify sablefish bag, possession, and nonresident annual limits based on sablefish abundance in NSEI and SSEI sections, as follows: .....	215
PROPOSAL 226	
Establish bag and possession limit for slope rockfish, as follows: .....	216
PROPOSAL 227	
Reduce the nonpelagic rockfish bag and possession limits and prohibit retention of yellow rockfish, as follows: .....	216
PROPOSAL 228	
Reduce the nonpelagic rockfish bag and possession limits and prohibit the retention of yelloweye rockfish by nonresidents in the SSEI Section, as follows: .....	217

PROPOSAL 229

Establish lingcod bag, possession, size, and annual limits for nonresidents in the Central Southeast Outside Waters section, as follows:..... 218

PROPOSAL 230

Amend the Demersal shelf rockfish delegation of authority and provisions for management to provide a resident priority, as follows: ..... 219

PROPOSAL 231

Amend harvest record recording requirements for lingcod, as follows:..... 220

PROPOSAL 232

Create a new spiny dogfish pot fishery in Southeast Alaska, as follows:..... 221
