

Kodiak Area Subsistence (1 proposal)

PROPOSAL 58

5 AAC 01.525. Waters closed to subsistence fishing.

Establish waters closed to subsistence fishing for salmon outside the mouths of Danger and Cold creeks as follows:

From a marker at 58 degrees 12.4 minutes North to the eastern island and from a marker at approximately 58 degrees 34.4 minutes North to the western island.

What is the issue you would like the board to address and why? Subsistence fishing too close to Danger and Cold creeks in Kazakof Bay on Afognak Island. The concern is for over harvest of silver salmon on these two drainages. There are no existing closed waters in the nearby saltwaters surrounding these creeks.
