

PROPOSAL 127

5 AAC 47.XXX.New Section.

Allow residents to retain king salmon in the month of April near Ketchikan, as follows:

Personal use (residents) may retain king salmon 28" or greater for the full month of April. One king salmon per day per personal use angler of legal size.

What is the issue you would like the board to address and why? Return the retention of 28" plus king salmon in unit 1A for year round Alaska residents for the full month of April. This has been a time frame to feed ourselves, children and grandchildren for years with high quality feeder kings.

Did you develop your proposal in coordination with others, or with your local Fish and Game Advisory Committee? Explain. Yes, this proposal was presented to the Ketchikan Advisory Committee and is being put forth as an AC generated proposal.

PROPOSED BY: Ketchikan Advisory Committee
