To: Alaska Board of Game

I wish to submit two comments for consideration at the up coming Board of Game meeting in February.

1. I support the re-establishment of a no trap buffer zone adjacent to Denali National Park. The wolf populations within the viewing areas of the park are a valuable tourist attraction than needs to be protected with the proposed trapping buffer zone.
2. I support a ban on bear snaring anywhere in Alaska. I believe that snaring Bears is a cruel practice. It is also dangerous to humans who may inadvertently enter the snaring area.

Thank you for considering my comments.

Sincerely,

Mark Miller
