

I am writing in **support of Proposal 105** to ban grizzly and black bear snaring in the Southwest and Central regions of Alaska.

As a biologist, I believe bear snaring is indiscriminate, cruel, archaic and not biologically sustainable. It should absolutely be banned.

My wife and I are also nature photographers and are planning a three-month trip to Alaska in 2014 primarily for wildlife viewing and nature photography. We want to photograph bears in Alaska. The more bears you kill, the less time tourists are going to spend in Alaska. Please support Proposal 105.
