

Comments for Alaska Board of Game:

Please vote **"YES" on proposal 105**--"Stop Bear Snaring". Snaring is a barbaric, hideous form of torture. It is not sustainable. We need our apex predators. As humans, we can do better this.

Please vote **"YES" on proposal 86**-- "Create a No-Trapping Buffer Zone Adjacent to Denali." Again, this a barbaric, cruel activity that should be obsolete. The loss of one alpha wolf usually ends the pack's existence. Denali has very few wolves left. We desperately need our apex predators-- and need the millions of dollars brought in by tourists annually.

Thank you for your attention,
